Ispra, 21/11/2008

Expert meeting on
the Development of Emission Factors for Road Transport Sector

JRC, Institute for Environment and Sustainability, Ispra, Italy
Leonardo Room, Gemello Building
16-17 October 2008

AGENDA

DAY 1: 16 October

10:15-10:30 Coffee

10:30-10:40 Welcome by the organisers, practical info
P. Dilara, JRC

10:40-11:00 Update on current situation with TFEIP and AEG update
L. Ntziachristos, LAT

11:00-11:30 Plans for development of COPERT model
L. Ntziachristos, LAT

11:30-12:10 Plans for development of HBEFA and ARTEMIS model and DB
M. Keller, INFRAS
M. Andre, INRETS

12:10-12:30 Development of real-world emissions factors for road traffic using VERSIT+
R.de Lange, TNO

12:30-14:00 Lunch

14:00-14:20 PHEM vehicle emission model
S. Hausberger, TUG

14:20-14:40 Development of modelling of EFs in Istituto motori
M.V. Prati, CNR - Istituto Motori

14:40-15:00 Use of Guidebook EFs for producing Global Emission Inventories
U. Doering, JRC

15:00-15:20 JRC Plans for experimental work and work on emission inventories in 2009
G. Martini, P. Bonnel, P. Dilara, JRC

15:20-15:30 Coffee Break

15:30-17:30 Discussion on the best use of measurements for the production of European Emission Factors
All participants

17:30 Transfer to hotels

19:30 Dinner in Angera (offered by the JRC)
DAY 2: 17 October

9:00-10:30  Set-up of a common WP for emission measurements, including the use of PEMS technology  All participants

Discussion on possibilities for funding (MS, JRC, RTD, other...)

10:30-11:00 Coffee Break

11:00-12:00 Continuation of discussion  All participants

12:00-13:30 Lunch

13:30-15:00 Plans for development of non-road emission factors  All participants

15:00-15:30 Conclusions, next steps  P. Dilara, JRC

15:30-16:00 Coffee

15:30... Transfer to Airport (see attached list)
