

# TFEIP 2021 – Feedback and Close

TFEIP co-chairs: Chris Dore, Martin Adams and Kristina Saarinen

# 1 Workplan: Core Tasks - EPs

# TFEIP

## Combustion & Industry EP

- “Official” update for **2H2 Food and Beverages** Guidebook chapter – to be added to the Guidebook website.
- **Ad hoc group** to be formed - review **new guidance/methods for Solvents**

## Transport EP

- “Official” updates to **Road Transport and Navigation** Guidebook chapters

# 1 Workplan: Core Tasks - EPs

# TFEIP

## Agriculture & Nature EP

- **NO EFs** – no change for direct emissions, add emissions from crop residues & indirect emissions (as per IPCC)
- **Marine NH<sub>3</sub>** - not to be added to the Guidebook
- Further discussion needed on **manure import/export** and **livestock allocations** to 3B/6A – ad hoc group/webinar??

## Projections EP

- **Annex IV** reporting template – **ad hoc group** to prepare views ahead of TFEIP2022

# 1 Workplan: Core Tasks

# TFEIP

## Planning the next EMEP/EEA Guidebook update

- TFEIP gathering information on priorities
- Next version release in 2023

## Outreach and Communications

- Annual meeting, newsletter
- More webinars?
- Form a TFEIP Gothenburg Protocol Ad Hoc group

# 1 Workplan: Review of the GP

## Planning our contribution

- Form a “GP Review” ad hoc TFEIP group

## Three main tasks

1. Is the **EMEP/EEA air pollutant emission inventory guidebook** sufficiently comprehensive and fit for purpose?
2. What is the current coverage and quality of **BC** (elemental carbon and organic carbon) emission reporting?
3. Provide “reflections” on the current **Emissions Reporting Guidelines**

# 1 Workplan: Review of the GP

## Our approach

- Issue a **questionnaire** to the TFEIP community: **June**
- Form the **GP Review ad hoc group**
- Plan & hold a **meeting/webinar: July**
  - Discuss the results of the questionnaire
  - Plan drafting
- Initial draft of TFEIP's input into GP review document: **Aug**
- “Reflections” on the reporting guidelines: **Dec – March? TBC**

# 10 Year Strategy: Priorities for next 10 years?

## 1. Improving the emissions inventory *REPORTING*

- Improved targeting of the **review process**
- Stronger **institutional arrangements** in Parties?
- More detailed reporting e.g. **emissions split by activity?**

Form views when reviewing the reporting guidelines

- **Would software help?**

Perhaps have a more detailed discussion at TFEIP  
2022

# 10 Year Strategy: Priorities for next 10 years?

## 2. Improving the *SCIENCE*

- Funding for the **EMEP/EEA Guidebook**
- Improve ability to respond to “**initiatives**” across TFs/centres

Raise these issues through the review of the GP

- Methodologies that better account for **Climate Change?**

Focus for some of the Expert Panels

- **Steering source measurement programmes/research**
- **Innovative data sources** to compile or verify inventories’

Probably needs specific initiatives

**Feedback slides**

**TFEIP**

**Close of Meeting**

**TFEIP**

**Thank-you to Ministry of Environment of the  
Slovak Republik and Slovak  
Hydrometeorological Institute**

**Thank-you to everyone contributing to the  
work of the TFEIP**

**See you (in person) next year!**
