HOW TO REPORT EMISSIONS UNDER THE CONVENTION ON LONG-RANGE TRANSBOUNDARY AIR POLLUTION

E-learning Course

UNECE

Federal Ministry
for the Environment, Nature Conservation
and Nuclear Safety

Umwelt
Bundesamt

Aim of the course

- **Assist countries in addressing air pollution and develop emission inventories**
- **Explain the importance of emission inventories for clean air policy development**
- **Explain the reporting process and requirements**
- **Explain methods for emission estimation**

Learning objectives

- **Explain what an emission inventory is**
- **Identify substances that are released into the atmosphere from various human activities**
- **Describe how emission inventories contribute to the development of clean air policy at national and international levels**
- **Outline the objectives, scope and principles of the Guidelines for reporting developed under the Convention**
- **List different source categories covered by reporting obligations**
- **Understand the principles of completing the reporting templates**
- **Describe different emission estimation methods used under the Convention**

Convention on Long-range Transboundary Air Pollution

Overview   Course   Certification

Module 1: The Convention on Long-range Transboundary Air Pollution
1 hour   0/1 Activities

Module 2: The Protocol to Abate Acidification, Eutrophication and Ground-Level Ozone (Gothenburg Protocol)
1.25 hour   0/1 Activities

Module 3: The Protocol on Heavy Metals
0.75 hour   0/1 Activities

Module 4: The Protocol on Persistent Organic Pollutants
0.5 hour   0/1 Activities

Final Assessment
0/1 Activities

Self-paced course

3.5 hours

English and Russian

Certificate of Completion
