

TFEIP 2022 – Review of the Gothenburg Protocol and Emissions Reporting GLs

TFEIP co-chairs: Chris Dore, Martin Adams and Kristina Saarinen

1. Review of the Gothenburg Protocol

Official document submitted to WGSR (January)

Further development on:

- **Flexibilities**
- Barriers to ratification and implementation
- Synergies with other policy areas

Final draft will be discussed at EMEP SB (Sept)

TFEIP to contribute to discussions & technical documents as agreed

- Contribute to the review of the flexibility paper??

2. Review of the 2014 Emissions Reporting Guidelines

Review of 2014 Emissions Reporting Guidelines

- A “simple” update for clarification/corrections

Numerous updates for references etc.

GLs continue to apply to all protocols that remain in force (and have not yet been terminated)

- Original & amended HM, POPs and GP protocols

... until all Parties of the original versions have ratified the amended versions.

Thank-you
