

Task Force on Emission Inventories and Projections

Draft Workplan 2016 - 2017

TFEIP co-chairs: Chris Dore, Martin Adams and Kristina Saarinen

1. TFEIP Workplan – Standing Items

On-going technical support/coordination

- To Parties and other parts of the CLRTAP

The workplans of the EPs

- ... to be included in the TFEIP workplan

Annual TFEIP/EIONET Meeting (& workshop)

- ... venue to be arranged!

Communications and outreach

- With technical experts, Parties, other parts of the CLRTAP and other relevant organisations/groups

2. TFEIP Workplan – Technical Activities

Science

Publication of Updated Guidebook Chapters

- TFEIP/EEA will finalise and publish the updated Guidebook chapters.
- Recommendations will be passed to the EMEP SB.

Definition of PM

- Countries to report whether EFs used include condensables or not
- Develop a new Tier 1 methodology for domestic combustion (that is technology specific)
- Draft a guidance document

2. TFEIP Workplan – Technical Activities

Update prioritised list of GB improvements... and other improvement activities

- We are able to steer the use of EMEP’s “emissions inventory improvement” budget.
- Not limited to Guidebook improvements

2. TFEIP Workplan – Technical Activities

Party Support

CLRTAP Outreach Activities

- TFEIP will try to be more engaged with this.

Driving Improvements

- TFEIP to target support on improving completeness (and transparency) in the short-term.
