

Agriculture and Nature Expert Panel 2018

Nick Hutchings, Barbara Amon, Rainer Steinbrecher

Role of Expert Panel

- Consider the need to sub-divide, merge or add source categories.
- Update the Guidebook methodologies
 - New technologies appear
 - New knowledge concerning the processes driving emissions
 - Update emission factors to take into account new emission measurements
- Gather feedback and answer queries concerning the Guidebook
- Identify the need for further research or study to improve the methodologies.
- Encourage the exchange of information between experts
